

Zero-Resistance™ Options+™ Bottle System

8 oz/250 mL Specialty Feeding System - Retail

Designed to assist in the management and treatment of complicated oral feeding issues requiring a compression nipple. This may include conditions including cleft lip/palate, tongue tie, lip tie, oro-neuromotor dysfunctions, congenital heart disease, or craniofacial anomalies.

- Promotes “Infant-Directed” feedings
- Typical feeding bottle design; fully reusable
- Helps decrease gassiness/air intake and burping with non-squeeze method
- Assembled with an Infant-Paced Feeding Valve and Level 1 Narrow Nipple
- Compatible with any of the Dr. Brown's® Narrow Nipples
- BPA free
- Infant-Paced Feeding Valves are not available for individual purchase
- Each bottle system purchased comes with 1 Infant-Paced Feeding Valves
- Hand washable, top rack of dishwasher, and/or microwave steam bag safe*
- Preferred by parents and medical professionals

* Autoclave recommended not to exceed 30 cycles and is NOT recommended for the Infant-Paced Feeding Valve
