

proudly presents the following upcoming webinar

Infant Feeding Journey for a NICU Patient: Part 1 – Supporting Neurologic Development for Eventual Feeding Success

Speakers:

Mindy Morris, DNP, NNP-BC, CNS, C-ELBW

Mindy is a neonatal nurse practitioner and clinical nurse specialist who has worked in the neonatal realm for 35 years. She has a passion for the care of the small baby, quality improvement, and supporting interdisciplinary family integrated care.

Ginny & Justin Shaffer, Graduate NICU Parents

Megan Carlson MS, OTR-L, CNT, NTMTC

Megan is a certified neonatal therapist and occupational therapist with nearly a decade of experience in pediatrics and the NICU. She is passionate about developing systems and people to promote equity, empowerment, and resilience.

The journey to successful oral feedings for the preterm and sick infants and their families in the NICU can be arduous. There are many strategies the entire NICU interprofessional team can integrate into practice throughout the journey to increase feeding success. In this two-part webinar series presented by neonatal professionals and parents, focus will be on activities and interventions that can prepare the infant and parents in helping to build the foundational skills for positive, successful, and enjoyable oral feeding.

Disclosures:

Mindy Morris, Receives salary as Co-owner of EngageGrowThrive, LLC; No nonfinancial disclosures.

Megan Carlson, no relevant financial or nonfinancial disclosures.

Ginny Shaffer, no relevant financial disclosures. Nonfinancial disclosure: speaker is the mother of the child discussed in the webinar.
