

Zero-Resistance™ Options+™ Bottle System Specialty Feeding System Starter Kit

Designed to assist in the management and treatment of complicated oral feeding issues requiring a compression nipple. This may include conditions including cleft lip/palate, tongue tie, lip tie, oro-neuromotor dysfunctions, congenital heart disease, or craniofacial anomalies.

- Promotes “Infant-Directed” feedings
- Typical feeding bottle design; fully reusable
- Helps decrease gassiness/air intake and burping with non-squeeze method
- Assembled with an Infant-Paced Feeding Valve and Level 1 Narrow Nipple
- Compatible with any of the Dr. Brown’s® eight (8) Narrow Nipples
- Individually wrapped
- BPA free
- Infant-Paced Feeding Valves are not available for individual purchase
- Each bottle system purchased comes with 2 Infant-Paced Feeding Valves
- The full bottle system is dishwasher, microwave steam bag, and steam sterilization (autoclave) safe
- Preferred by parents and medical professionals

*Autoclave recommended not to exceed 30 cycles and is NOT recommended for the Infant-Paced Feeding Valve.
