

Pacidose™ and Silicone Bulb Cleaning Brush

The Pacidose™ allows for fuss-free, accurate administration of small liquid boluses by way of a small silicone bulb with narrow tubing through the center.

- Uses include medication/vitamins, therapeutic tastings, and colostrum
- Allows infant to extract liquid in a more natural and supportive way for safe swallowing
- Attaches to a slip tip and/or catheter tip syringes
- BPA free; Individually wrapped with wire cleaning brush
- Silicone bulb is top rack dishwasher, sanitizer, and microwave steam bag compatible
- Use Silicone Bulb Cleaning Brush to clean inside channel of Pacidose™
