

The Infant-Driven Feeding® Program is an evidence-based, research-supported online educational program that provides standard-of-care feeding practices for neonatal units.

BENEFITS

Benefits for Babies, Families, and Staff:

- Increased Breastfeeding Rates
- Increased Kangaroo Care Rates
- Increased Parent Satisfaction
- Increased Nurse Satisfaction

Recoup Your Investment

- Decreased Time to Full Oral Feedings
- Reduced Length of Stay (LOS)
- Save on Infant Feeding Supplies

Unit-wide education for all staff improves infant outcomes; provides consistency among all team members, including parents; delivers sustainability; and has economic benefits.
