

Every baby deserves **ESSENTIAL** feeding tools for positive feeding experiences.

SB260-MED

**Zero-Resistance™
2 oz/60 mL AccuFeed
with Premie Flow™ Nipple**

- Begin with a slow flow nipple for initial safe feeding experiences.
- Graduations from 2 oz/60 mL.
- Ultra-Premie™ (SB266-MED) option available.

SB411-MED

**Zero-Resistance™
4 oz/120 mL Narrow Bottle System
with Premie Flow™ Nipple**

- The "transition-to-home" bottle for volumes over 2 oz/60 mL
- Level T (SB41606-MED) and Level 1 (SB413-MED) options available.

SN615-MED

**Narrow Ultra-Premie™ Nipple
with Collar**

- Excellent first choice for first feeding experiences and infants that require a very slow flow.
- Appropriate for use when infant shows stress signals with Premie Flow™ nipple.

SN715-MED

Narrow Level T Nipple with Collar

- Excellent choice for infants transitioning from Premie Flow™ Nipple.
- Useful for late preterm or full-term infants.

AC076-MED

AccuBrush™

- Bristles designed to clean interior of AccuFeed bottle.
- Chevron channels at base for cleaning nipples.

AC059-MED

Non-Metal Bottle Brush

- Bristles designed to clean interior of 4 oz /120 mL or 2 oz /20 mL bottle systems.
- Chevron channels at base for cleaning nipples.

AC032-MED

Microwave Steam Sanitizing Bags

- Accommodates bottle parts, nipples, pacifiers, and nonmetal brushes for sanitization (recommended before first use and at least once every 24 hours).
- 30 cycles per bag.
- WARNING: Do not microwave wire cleaning brush.

SR101-MED

4.4" Wire Cleaning Brush

- Use to clean internal vent system.
- Replace every 24 hours.
- WARNING: Do not use wire cleaning brush to clean nipples/teats as this will cause nipple/teat to tear.

Time to Make the Switch to REUSABLE
